PEOPLE COUNTING SYSTEMS

Z-WiFi People Counter

Wireless People Counting Made Easy

- Realize the true profit potential of your operation with accurate traffic statistics.
- People crossing the detection area are counted.
- Flexible design allows for door frame-mount or wall mount.
- Sensing technology is never confused by color, size or ambient lighting.
- Unique serial number identifies specific doors and locations.
- Battery-powered. No electrical wiring required.
- Optional AC adapters available for direct power connections.
- Small size, light weight, fast, easy and flexible installation.
- Can be used alone or with a Traf-Sys MIU data controller and wireless repeater enabling you to collect and view your traffic data remotely over a network.

Traf-Sys Z-WiFi People Counters are designed to provide an affordable highly accurate wireless people counting solution with flexible mounting options. These counters can be mounted at the entrance of your facility to measure pedestrian traffic statistics. With features such as lithium ion battery power and wireless communication, these counters are easy to install.

Above: Easy mounting bracket for Z-WiFi People Counter

Reduce your equipment cost by using your already existing wireless network with the Z-WiFi People Counter. The Z-WiFi People Counter can be configured to use either a Static IP address or DHCP and supports WEP or WPA2 security encryption. You can use the Z-WiFi People Counter anywhere you have an 802.11b wireless signal available. Your data will be logged by a PC on your local network running VisiCount people counting software.

Enhance your people counting solution with the VisiCount people counting software to compile and analyze pedestrian traffic data from multiple facilities for valuable traffic trending analysis that can help you take your business to the next level.

Traf-Sys Z-WiFi People Counters

Size	4.125" x 2.25" x 1.125"
